

22nd Annual Civil & Environmental Engineering Career Fair

Societies of Civil and Environmental Engineers
California Polytechnic State University
San Luis Obispo, California

October 27, 2011

Cal Poly's Civil and Environmental Engineering Career Fair has provided a link between students and prominent companies and organizations for over 20 years. Each year, Cal Poly students prove to be among the top interns and employees because of their practice-oriented education and "learn by doing" experience. Both the Society of Environmental Engineers (SENVE) and the Society of Civil Engineers (SCE) strive to enhance student learning by providing unique opportunities to succeed. Because of our students, SENVE and SCE received numerous regional and national awards during the 2010-11 academic year.

Through SCE and SENVE, students have many opportunities to attend meetings with professional speakers, field trips and site visits, regional- and national-level technical/design competitions, community service activities, workshops, and conferences. Events and activities such as these help to provide students with the social, professional, and technical skills needed to be successful in today's civil and environmental engineering professions.

SCE and SENVE are honored to invite you to the 22nd Annual Civil and Environmental Career Fair being held **Friday, January 27, 2012**. We are excited to provide your organization with the opportunity to meet and recruit some of 2012's best engineering students. In reserving a table for this event, you may choose any combination of the following options:

- ◆ **Attend the Career Fair:** This includes a table at the Career Fair with recruiting opportunities from 9am to 2pm, interview opportunities from 2pm to 4pm, complimentary breakfast and lunch, and a résumé CD.
- ◆ **Attend the Formal Banquet:** Your organization may sponsor a table for two representatives to enjoy a delicious dinner and the opportunity to meet and recruit students in a more social environment. This event will be held after the Career Fair during the evening of January 27, 2012. Companies will receive four tickets to invite students to their tables during the Career Fair. Three to five additional students will occupy remaining seats at each table.
- ◆ **Purchase a Résumé CD:** Learn about some of our most talented and ambitious students from one location. Upon request, résumé CDs can be sent several days prior to the Career Fair date.
- ◆ **Make a Donation:** Support one or both of our student chapters by making a tax-deductible donation. The following are a few events planned for SCE and SENVE this year:
 - SCE is attending the Pacific Southwest Conference in Pomona and the ASCE National Conference in Tennessee. The concrete canoe team is hoping to continue their national competition attendance in Reno, Nevada, while our steel bridge team also has dreams of attending the national competition in South Carolina.
 - SENVE is attending the Air and Waste Management Association's 105th Annual Conference and Exhibition in San Antonio, Texas. SENVE's competition teams are traveling to Las Cruces, New Mexico for the WERC Environmental Design Contest, and to Pomona for the ASCE Pacific Southwest Conference (to participate in the Environmental Competition).

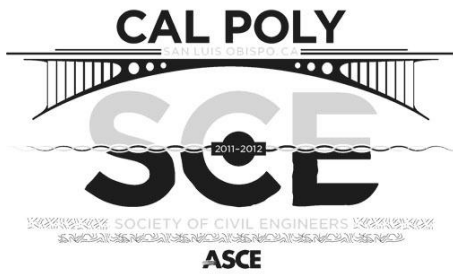

We would greatly appreciate you taking a few minutes to complete and submit the enclosed registration form. Within three weeks of payment, you can expect to receive confirmation of your registration. In January, we will send a detailed packet containing directions, parking information, shipping information, and a schedule for the event.

SCE and SENVE are committed to making this year's Career Fair a valuable and enjoyable experience for your organization. Thank you for your time and support of Cal Poly and our student chapters. Please feel free to contact us with any questions. We look forward to seeing you in January.

Sincerely,

Erik Biczkow, E.I.T.
SCE Executive Vice President

October 27, 2011

Over the past several years, the Cal Poly ASCE Student Chapter (SCE) has been incredibly successful. The chapter's success is a direct reflection of the tremendous help and support we receive from our sponsors. SCE is looking to provide many new and interesting activities and events for our members to better prepare them for life after school. To accomplish this goal, we would like to attend several ASCE sponsored events as well as sponsor multiple field trips and social activities per term.

SCE's budget for the year incorporates several big ticket items, including: sending a team of students to the 2012 ASCE Pacific Southwest Conference (PSWC) in Pomona; supporting our canoe, steel bridge, and mechanically stabilized earth wall teams; and sending a delegation to the ASCE National Conference in Memphis, Tennessee. In addition, we are planning a joint technical tour of a major construction site with the University of California, Los Angeles, or San Jose State University. Several smaller events include tours of the Point San Luis Light House, Hearst Castle, the Highway 46 Improvement Project, and several community service projects. As was the case last year, the student chapter is faced with the difficult task of fund-raising a significant amount of money to support these events.

We recognize that we asked for your support to help the student chapter attend similar events a short time ago. Additionally, we recognize the economic downturn and uncertainty has made things difficult for many in our industry. However, we want to continue to give our members the best opportunity to succeed. Therefore, we are moving forward with the goal of raising at least \$20,000 during the upcoming year.

We are greatly appreciative of your previous support as it has enabled SCE to develop into one of the most recognized and respected ASCE Student Chapters in the nation. In recognition of our progress, ASCE awarded the 2011 Robert Ridgway Award to SCE as the single most outstanding student chapter in the nation for the third consecutive year. Clearly, the nation recognizes something that your organization has known for some time: Cal Poly graduates are some of the best prepared civil engineering students in the profession.

We hope you consider providing a donation to SCE for this year. Any support that you provide will help us to offset the expenses associated with a large number of planned events. We need your help so that SCE can continue developing some of the best and brightest civil engineers in the nation.

Any donation to SCE of \$200 or more will get your company's logo on our 2012 PSWC T-shirts and the "Sponsors" section of our website at www.cpsce.com

2011 Pacific Southwest Conference Champions

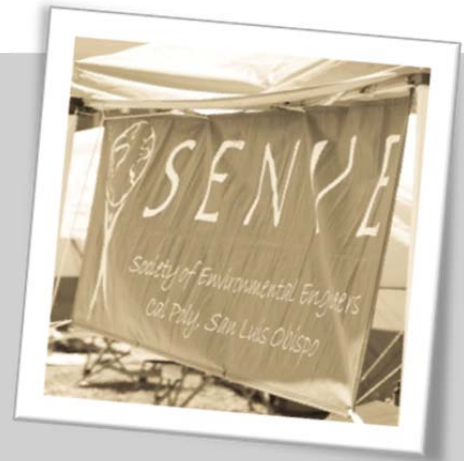

Society of Environmental Engineers

Cal Poly, San Luis Obispo

The Society of Environmental Engineers (SENVE) at Cal Poly is a club that is enthusiastic about its mission: *To give students the opportunity to achieve educational excellence through hands-on design experience while still providing networking opportunities between industry professionals and students.* In effort to stay committed to this mission this year, SENVE will be participating in two environmental design competitions as well as attending the Air and Waste Management Association's (A&WMA) 105th Annual Conference and Exhibition in San Antonio, Texas. Abundant membership involvement in both of these events is a fundamental goal of the club.

SENVE has been a student chapter of A&WMA since the early 1970's, and has had the honor of being awarded first place in the nation for their Outstanding Student Chapter Award in recent years. We hope to achieve the first place standing for this year as well. Since the beginning of our chapter, membership has ranged from 20 to 30 people. This year however SENVE has an astonishing 60+ members, which is something that has rarely happened in the history of the club. It is a benefit for SENVE to have this many members, but the affect this increase will have on our available funds is apparent. SENVE's ongoing goal is to continue to provide its members with the proper resources and aid like decreased national dues, food at general meetings, competition materials, travel expenses and much more. Because of this massive increase in membership, we are asking for your support to make this goal a success.

The conference and the competitions are great resources for our students. To ensure cost coverage of member participation in these events, SENVE hopes to raise at least \$10,000.

Contributing to Success

Donations received will be used to primarily help cover the cost of travel expenses to the conference in Texas as well as on design competition materials. With your tax-deductible contribution, you will be a valued part of our clubs' commitment to our goals by helping to reduce costs for members, and allowing them to experience great educational opportunities. Any amount of contribution would be greatly appreciated.

Your generous sponsorship would be highlighted by: printing your company name on our club T-shirt as well as acknowledgement of your contribution on club materials and on our website at

<http://calpoly.edu/~senve/>.

Please help us make this year a successful one!

22nd Annual Career Fair

Cal Poly, San Luis Obispo

Registration Form

Must be postmarked by December 16, 2011

Contact Name/Title: _____
 Name of Organization: _____
 Company Website: _____
 Mailing Address: _____

 E-mail: _____
 Phone: () _____
 Fax: () _____

Will you require a W9 form? Yes No

	Description	Quantity	Amount Due
Career Fair:	\$450.00* for one table (two reps) if postmarked by 12/16/11 - includes one résumé CD		\$
	\$50.00 for each extra representative		\$
	\$50.00 late fee if postmarked between 12/17/11 and 1/6/12		\$
	\$100.00 late fee if postmarked between 1/7/12 and 1/20/12		\$
Formal Banquet:	\$500.00 per table - If participating, how many reps per table? (2-4) _____		\$
**Others:	\$50.00 for each extra résumé CD		\$
	Donation for SCE / SENVE (Circle One)		\$
Total			\$

---- Please make all checks payable to "Cal Poly SCE" ----

Please note that no refunds will be issued after January 6, 2011.

* For government organizations, the cost for one table at the career fair is \$250.

**Participation is not required to order extra résumé CDs or for donations to SCE and/or SENVE.

What area does your organization specialize in? (Check all that apply)

- Structural
- Geotechnical
- Water Resources
- Transportation
- General Civil
- Environmental
- Construction
- Land Development

Other: _____

Who is your organization looking to hire? (Check all that apply)

- Interns
- Full-time Employees
- Co-Op Positions
- Freshman Specific Positions Available
- Other _____

Would you like to receive your résumé CD (or an extra one) prior to the Career Fair?

Yes No

Would you be interested in attending a golf tournament, hosted in April, which would incorporate interview opportunities with students?

Yes No

Mailing Address:

**UU Epicenter, Box #136
Cal Poly
1 Grand Avenue
San Luis Obispo, CA 93407**

You should expect to receive a confirmation email within 3 weeks of mailing this form.
